Introduction to Sociology, Sixth Edition, organizes the core concepts of modern sociology around the unifying theme of globalization. Taking a comparative approach, the authors examine American society in a global and historical context, underscoring the wide diversity of social forms and social change. The authors emphasize the connections between American and world societies and the integral role of individuals in shaping both local and global society. Retaining the hallmark clarity of previous editions, the Sixth Edition has been updated to reflect the most recent sociological research and data. This edition also offers expanded in-text pedagogy and exceptional print and multimedia resources for students and instructors.

With a combination of up-to-the minute examples, cutting-edge research, and the latest available data, Essentials of Sociology gets students thinking sociologically about what they're seeing in the news and on their screens. Highlighting the macro social forces at work in our everyday lives, the authors move students beyond their individual experiences and cultivate their sociological imaginations. Innovative

pedagogy promotes active reading and helps students master core sociological concepts. This strong in-text pedagogical program is now supported by InQuizitive, Norton's new formative, adaptive learning tool.

Building upon the success of previous editions, this fully revised edition of Sociology lays the foundations for understanding sociology in Australia. The depth and breadth of the book ensures its value not only for first-year students, but for sociology majors requiring on-going reference to a range of theoretical perspectives and current debates. This fifth Australian edition continues to build on the book's reputation for coverage, clarity and content, drawing upon the work of leading Australian sociologists as well as engaging with global social trends and sociological developments.

In a study crucial to our understanding of American social inequality, Edna Bonacich and Richard Appelbaum investigate the return of sweatshops to the apparel industry, especially in Los Angeles. The "new" sweatshops, they say, need to be understood in terms of the decline in the American welfare state and its strong unions and the rise in global and flexible production. Apparel manufacturers now have the incentive to move production to wherever low-wage labor can be

File Type PDF Sociology By Giddens Anthony 6th Sixth Edition 2009

found, while maintaining arm's-length contractual relations that protect them from responsibility. The flight of the industry has led to a huge rise in apparel imports to the United States and to a decline in employment. Los Angeles, however, remains a puzzling exception in that its industry employment has continued to grow, to the point where L.A. is the largest center of apparel production in the nation. Not only the availability of low-wage immigrant (often undocumented) workers but also the focus on moderately priced, fashion-sensitive women's wear makes this possible. Behind the Label examines the players in the L.A. apparel industry, including manufacturers, retailers, contractors, and workers, evaluating the maldistribution of wealth and power. The authors explore government and union efforts to eradicate sweatshops while limiting the flight to Mexico and elsewhere, and they conclude with a description of the growing antisweatshop movement. Los Angeles Times Best Nonfiction Book of 2000

Now in its eighth edition, this continues to be the indispensable guide to understanding the world we make and the lives we lead. Revised and updated throughout, it remains unrivalled in its vibrant, engaging and authoritative introduction to sociology. The authors

provide a commanding overview of recent global developments and new ideas in sociology. Classic debates are also given careful coverage, with even the most complex ideas explained in an engaging way. Written in a fluent, easy-to-follow style, the book manages to be intellectually rigorous but still very accessible. With a strong focus on interactive pedagogy, it aims to engage and excite readers, helping them to see the enduring value of thinking sociologically. The eighth edition includes: a solid foundation in the basics of sociology: its purpose, methodology and theories; up-to-the-minute overviews of key topics in social life, from gender, personal life and poverty, to globalization, the media and politics; stimulating examples of what sociology has to say about key issues in our contemporary world, such as growing inequality, climate change and the rise of terrorism; a strong focus on global sociology and the ways that digital technologies are radically transforming our world; quality pedagogical features, such as Classic Studies and Global Society boxes, and Thinking Critically reflection points, as well as end-of-chapter activities inviting readers to engage with popular culture and original research articles to gather sociological insights. The eighth edition sets the standard for introductory sociology. Complete with extensive supporting resources at www.politybooks.com/giddens, it is the ideal teaching text for first-year university and college courses,

File Type PDF Sociology By Giddens Anthony 6th Sixth Edition 2009

and will help to inspire a new generation of sociologists.

This major study develops a new account of modernity and its relation to the self. Building upon the ideas set out in *The Consequences of Modernity*, Giddens argues that 'high' or 'late' modernity is a post traditional order characterised by a developed institutional reflexivity. In the current period, the globalising tendencies of modern institutions are accompanied by a transformation of day-to-day social life having profound implications for personal activities. The self becomes a 'reflexive project', sustained through a revisable narrative of self identity. The reflexive project of the self, the author seeks to show, is a form of control or mastery which parallels the overall orientation of modern institutions towards 'colonising the future'. Yet it also helps promote tendencies which place that orientation radically in question - and which provide the substance of a new political agenda for late modernity. In this book Giddens concerns himself with themes he has often been accused of unduly neglecting, including especially the psychology of self and self-identity. The volumes are a decisive step in the development of his thinking, and will be essential reading for students and professionals in the areas of social and political theory, sociology, human geography and social psychology.

File Type PDF Sociology By Giddens Anthony 6th Sixth Edition 2009

This fully revised and updated version of Anthony Giddens's *Sociology*, now in its fifth edition, offers an unrivalled introduction for students new to the subject - lucid, lively, authoritative and original. Written by one of the world's leading sociologists, this comprehensive textbook manages to be clear, accessible and jargon-free, but without oversimplifying complex debates. Earlier editions of *Sociology* broke new ground by incorporating cutting-edge debates, such as the impact of globalisation, into an introductory text. This fifth edition remains a state of the art textbook, with fresh and engaging new material added throughout. While covering all of the core topics of sociology, the fifth edition also includes a great deal of substantive new material, ensuring that students are introduced to the most recent sociological debates. Throughout, the book weaves together classical and contemporary theory and data, and provides a wide range of everyday examples to which students can easily relate. The fifth edition also benefits from: ? New discussions of global inequality, disability, ageing and the life course, risk, the network society, and terrorism, as well as many other additional and up-to-date topics. ? Numerous learning aids in every chapter, such as summary points, questions for further thought, and additional reading suggestions, which help to reinforce students' knowledge. ?

Lots of extra photographs, diagrams, case studies and cartoons, to bring ideas to life and fire students' imaginations. High-quality supplementary resources on a dedicated website, including a full instructors' manual and additional student aids, all specially designed to stimulate students' learning and critical thinking. The fifth edition of this classic textbook is an ideal teaching text for first-year university and college courses, and will be essential reading for all students who are looking for an exciting, authoritative and easy-to-follow introduction to sociology.
