All it will take is for you to slow down and pay attention to the world around you and, I promise, you will find the world within you. Indigenous seer, gifted plant whisperer, and Witchery author Juliet Diaz invites you to walk the path of the Plant Witch. Journey far beyond the basic medicinal and magical properties of plants, deep into Mother Earth's drumming heart. Drawn from ancestral practices passed down by generations of teachers, the lessons in this book will awaken your intimate connection with nature, your ancestors, your guides, and to your true self through the powerful magic of plants. Within these pages, you will learn: * Essential, magical, and medicinal properties of 200 herbs, flowers, trees, and fruits. * Rituals for abundance, cleansing, and connecting with spirits. * Spells to ward against evil, find answers, and protect against self-sabotage. * Potions to open your third eye, bring luck, and promote creativity. * Communication techniques for speaking and listening to plants. * The optimal moon phases and seasons to work with different plants. Even as humans forget our place in nature's rhythm and cause harm to our Earth Mother, the spirits of plants still call out to us, appear in our dreams, and inspire us as they push through cracks in cement-resilient and determined to thrive. From abre camino and acacia to yucca and ZZ plant, each has unique personality and wisdom to share if we are only willing to listen.

Excerpt from Das Fähnlein Der Sieben Aufrechten: Novelle In this edition of Keller's Falmiez'rz, the text has been somewhat abbreviated and otherwise adapted to practical use in school and college. Dr. Sturtevant has prepared the Vocabulary and contributed to the Notes, but I have revised both and am jointly responsible with him for their final form. We have derived assistance from the following authorities. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. Find more at www.forgottenbooks.com This book is a reproduction of an important historical work. Forgotten Books uses state-of-the-art technology to digitally reconstruct the work, preserving the original format whilst repairing imperfections present in the aged copy. In rare cases, an imperfection in the original, such as a blemish or missing page, may be replicated in our edition. We do, however, repair the vast majority of imperfections successfully; any imperfections that remain are intentionally left to preserve the state of such historical works.

When Mont Blanc Noland reached the shores of ancient Jaya, his teachings of modern science only fueled the distrust the Shandians had toward outsiders. But if they follow his advice in order to save their dying tribe, they'll have to sacrifice everything they hold sacred! -- VIZ Media

Growing from tiny tadpoles to massive master jumpers, frogs and their life cycles are fascinating. How far can frogs jump? Why do their eggs look slimy? Answer these questions and many more in this illustrated introduction to amphibians. With her signature bright, well-labeled diagrams and simple text, Gail Gibbons introduces the habitat and life cycles of frogs and gives an overview of common frog behaviors. Important biology vocabulary is introduced, defined, and reinforced with kid-friendly language and clear illustrations--plus a page of intriguing frog trivia and clear diagrams that show how frogs are different from toads. Bonus material is included about the unique role frogs play in the environment.

A groundbreaking study of witchcraft in modern-day Bavaria between 1300 and 1800.

Award-winning historian Mary Beth Norton reexamines the Salem witch trials in this startlingly original, meticulously researched, and utterly riveting study. In 1692 the people of Massachusetts were living in fear, and not solely of satanic afflictions. Horrifyingly violent Indian attacks had all but emptied the northern frontier of settlers, and many traumatized refugees—including the main accusers of witches—had fled to communities like Salem. Meanwhile the colony 's leaders, defensive about their own failure to protect the frontier, pondered how God 's people could be suffering at the hands of savages. Struck by the similarities between what the refugees had witnessed and what the witchcraft "victims" described, many were quick to see a vast conspiracy of the Devil (in league with the French and the Indians) threatening New England on all sides. By providing this essential context to the famous events, and by casting her net well beyond the borders of Salem itself, Norton sheds new light on one of the most perplexing and fascinating periods in our history.

"A handbook for hunting and punishing witches to assist the Inquisition and Church in exterminating undesirables. Mostly a compilation of superstition and folklore, the book was taken very seriously at the time it was written in the 15th century and became a kind of spiritual law book used by judges to determine the guilt of the accused"--From publisher description.

With the help of these 44 oracle cards, you can have a deeply personal relationship with the amazing fairy realm and with the help of the enclosed guidebook; you'll learn how to give yourself and your loved ones accurate and helpful readings.
