From the 14th until the 19th century the last novella of Boccaccio's Decameron, also known as the Griselda story, has been translated and adapted countless times in many European languages. This story's success can be explained by considering it a myth and analysing how this myth engages with contemporary discourses, such as the definition of the ideal wife, the querelle des femmes, the socio-political consequences of social exogamy, and tyranny.

A collection of essays by the art historian Aby Warburg, these essays look beyond iconography to more psychological aspects of artistic creation: the conditions under which art was practised; its social and cultural contexts; and its conceivable historical meaning.

Caves and the Ancient Greek Mind analyses techniques of searching for ultimate wisdom in ancient Greece. The Greeks perceived mental experiences of exceptional intensity as resulting from divine intervention. They believed that to share in the immortals' knowledge, one had to liberate the soul from the burden of the mortal body by attaining an altered state of consciousness, that is, by merging with a superhuman being or through possession by a deity. These states were often attained by inspired mediums, 'impresarios of the gods' - prophets, poets, and sages - who descended into caves or underground chambers. Yulia Ustinova juxtaposes ancient testimonies with the results of modern neuropsychological research. This novel approach enables an examination of religious phenomena not only from the outside, but also from the inside: it penetrates the consciousness of people who were engaged in the vision quest, and demonstrates that the darkness of the caves provided conditions vital for their activities.

In 1810, while still at Eton, Percy Bysshe Shelley published Zastrozzi, the first of his two early Gothic prose romances. He published the second, St. Irvyne; or, The Rosicrucian, a year later. These sensationalist novels present some of Shelley's earliest thoughts on irresponsible self-indulgence and violent revenge, and offer remarkable insight into an imagination that is strikingly modern. This new Broadview Literary Texts edition also brings together the fragmentary remains of Shelley's other prose fiction, including his chapbook, Wolfstein, and contemporary reviews both by Shelley and about his work.

The Mereleigh Record Club, a group of 60-something-year-old friends from their old rock and roll days, receives an invitation from a similar group in Japan to visit and assist with a charity fund-raising show. The best-laid plans of the Japanese go astray due to cultural misunderstandings and a case of mistaken identity. Then the daughter of a friend of one of the group, who is an entertainer, goes missing in Japan. The shadowy hand of the Yakuza crime syndicate is believed to be behind her sudden disappearance, and the faction puts heavy pressure on the record group to cancel its tour of Japan. Will the woman be found alive? The heat goes on in the thriller The Mereleigh Record Club Tour of Japan: Lost in Japan. Author Roy Vaughan draws from his personal knowledge of Japan to compile this fast-moving novel. For many years he worked as a journalist covering Japanese affairs for the New Zealand Herald. Many situations and characterizations in his book are drawn from real-life experiences, giving it a high degree of realism.
