A lighthearted meditation on the philosophical quandaries of the hit television show The Big Bang Theory Ever wonder what Aristotle might say about the life Sheldon Cooper leads? Why Thomas Hobbes would applaud the roommate agreement? Who Immanuel Kant would treat with "haughty derision" for weaving "un-unravelable webs?" And—most importantly—whether Wil Wheaton is truly evil? Of course you have. Bazinga! This book mines the deep thinking of some of history's most potent philosophical minds to explore your most pressing questions about The Big Bang Theory and its nerdy genius characters. You might find other philosophy books on science and cosmology, but only this one refers to Darth Vader Force-chokes, cloning Leonard Nimoy, and oompa-loompa-like engineers. Fo-shizzle. The Science of TV's The Big Bang Theory lets all of us in on the punchline by breaking down the show's scientific conversations. Author Dave Zobel maintains a humorous and informative approach and gives readers enough knowledge to make them welcome on Sheldon's couch." -- Page [4] cover.

In the spirit of Mindy Kaling's bestseller *Is Everyone Hanging Out Without Me?* or Judd Apatow's *Sick in the Head*, a collection of humorous, autobiographical essays from Kunal Nayyar, best known as Raj on CBS's #1 hit comedy *The Big Bang Theory*. Of all the charming misfits on television, there's no doubt Raj from *The Big Bang Theory*—the sincere yet incurably geeky Indian astrophysicist—ranks among the misfittingest. Now, we meet the actor who is every bit as loveable as the character he plays on TV. In this revealing collection of essays written in his irreverent, hilarious, and self-deprecating voice, Kunal Nayyar traces his journey from a little boy in New Delhi who mistakes an awkward first kiss for a sacred commitment, gets nosebleeds chugging Coca-Cola to impress other students, and excels in the sport of badminton, to the confident, successful actor on the set of TV's most-watched sitcom since *Friends*. Going behind the scenes of *The Big Bang Theory* and into his personal experiences, Kunal introduces readers to the people who helped him grow, such as his James Bond-loving, mustachioed father. Kunal also walks us through his college years in Portland, where he takes his first sips of alcohol and learns to let loose with his French, 6'8" gentle-giant roommate, works his first-ever job for the university's housekeeping department cleaning toilets for minimum wage, and begins a series of romantic exploits that go just about as well as they would for Raj. (That is, until he meets and marries a former Miss India in an elaborate seven-day event that we get to experience in a chapter titled "My Big Fat Indian Wedding.") Full of heart, but never taking itself too seriously, this witty collection of underdog tales follows a young man as he traverses two continents in search of a dream, along the way transcending culture and language (and many, many embarrassing incidents) to somehow miraculously land the role of a lifetime.
