Born a princess of Schleswig-Holstein in 1858, Empress Augusta Victoria, known in the family as 'Dona', was marked out from early childhood as a potential bride for Prince William of Prussia. When they married in 1881, everyone expected that she would never concern herself with more than the traditional Prussian princess's interests of Kirche, Kuche, Kinder (church, kitchen, children). Yet within twenty years of his accession as William II, the last German Emperor, she would become in some ways the stronger character and steadying influence her increasingly neurotic and unstable husband required. This is the first biography of an often overlooked personality in modern history."

Born a princess of Saxe-Weimar-Eisenach in 1811, Augusta was married at the age of seventeen to Prince William of Prussia, the future King and first German Emperor. A woman of progressive opinions and artistic tastes, married to a man with whom she had almost nothing in common, she soon found herself out of place at the military-minded court of Berlin, an existence she sought to alleviate for a time in an endless round of parties and social activities and an appetite for gossip. But despite increasing ill-health from middle age, she soon found self-fulfilment in her involvement with nursing and other welfare activities in Berlin, as well as her interest in the arts. A friend of Queen Victoria and the Prince Consort in England for some years, she passed her liberal views on to her only son Frederick, destined to reign for only three months as German Emperor in 1888, two years before her own death. This is the first biography in English for over a century.

Hermine Reuss of Greiz is perhaps better known as the second wife of the Kaiser (Emperor Wilhelm II of Germany) whom she married shortly after the death of his first wife Auguste Viktoria and while he was in exile in the Netherlands. She was by then a widow herself with young children. She was known to be ambitious about wanting to return to power, and her husband insisted on her being called 'Empress'. To achieve her goal, she turned to the most powerful man in Germany at the time, Adolf Hitler. Unfortunately, her dream was not realised as Hitler refused to restore the monarchy and with the death of Wilhelm in 1941, Hermine was forced to return to her first husband's lands. She was arrested shortly after the end of the Second World War and would die under mysterious circumstances while under house arrest by the Red Army.

Recounts the life of daughter of Queen Victoria--the Empress Frederick--and her personal war against the antidemocratic, antifeminist forces during a revolutionary time in European history, from the mid-nineteenth century to the beginning of World War I. Reprint.

The Empress Frederick is a memoir by several anonymous authors. Victoria, Princess Royal was the German Empress and Queen of Prussia as the wife of German Emperor Frederick III, for a short time in 1841.

This incredible work presents the memoirs of Wilhelm II, the last German Emperor and King of Prussia. Despite maintaining the German Empire's status as a great power by building a solid navy, his brash public statements and inconsistent foreign policy significantly antagonized the international community and are considered by many to be one of the underlying causes of World War I. When the German war effort tumbled after a string of devastating defeats on the Western Front in 1918, he was forced to resign, marking the end of the German Empire.

"Wilhelm II or William II (German: Friedrich Wilhelm Viktor Albrecht; English: Frederick William Victor Albert) (27 January 1859 ? 4 June 1941) was the last German Emperor (Kaiser) and King of Prussia, ruling the German Empire and the Kingdom of Prussia from 15 June 1888 to 9 November 1918. He was a grandson of the British Queen Victoria and related to many monarchs and princes of Europe. Crowned in 1888, he dismissed the Chancellor, Otto von Bismarck, in 1890 and launched Germany on a bellicose "New Course" in foreign affairs that culminated in his support for Austria-Hungary in the crisis of July 1914 that led to World War I. Bombastic and impetuous, he sometimes made tactless pronouncements on sensitive topics without consulting his ministers, culminating in a disastrous Daily Telegraph interview that cost him most of his power in 1908. His generals dictated policy during World War I with little regard for the civillian government. An ineffective war leader, he lost the support of the army, abdicated in November 1918, and fled to exile in the Netherlands."--Wikipedia.
