The Lost History of Ancient America presents new evidence of transoceanic visitors to America, hundreds, even thousands, of years before Christopher Columbus was born. Its 20 eminent contributors are experts in a variety of fields, from botany, biology, and prehistoric engineering to underwater archaeology, archaeo-astronomy, and Bronze Age warfare.

While digging out a new basement near Los Angeles, homeowners accidentally unearth a 3,000-year-old Phoenician altar. A treasure-hunter in Ohio finds more than he expected, when his metal detector locates an Eastern Mediterranean pendant from 1000 bc. Two caches of coins minted in Imperial Rome surface along the Ohio River. A Smithsonian Institution archaeologist excavating a Native American burial mound in Tennessee removes a stone emblazoned with a second century Hebrew inscription. These are just a few of the dramatic finds described in The Lost Worlds of Ancient America. They confirm that our continent was visited and influenced by visitors from Europe and the Near East hundreds, even thousands of years before its "official" discovery in 1492. As such, this startling, fresh proof of their powerful impact on the pre-Columbian New World offers us a different view of American origins that threatens to re-write mainstream textbooks. More than two dozen noted academics, researchers, and writers have contributed to this myth-shattering volume, including: Scott Wolter, a university-trained geologist, construction analysis company president, and author of The Hooked X, showcased on The History Channel; Dr. John J. White, editor emeritus of the Midwestern Epigraphic Society's quarterly Journal; J.M. Allen, a former air-photo interpreter for Britain's Royal Air Force; Bruce Scofield, PhD, a world-class authority on Aztec astrology; Dr. Arlan Andrews, Sr., a registered professional engineer with a 40-year career at White Sands Missile Range, AT & T Bell Labs, and the White House Science Office; Wayne May, founder and publisher of Ancient American magazine.

In a single day and night of misfortune, the island of Atlantis disappeared into the depths of the sea - Plato, 360 B.C. Ever since Plato first pondered the existence of Atlantis, the truth behind this infamous sunken city has captured the world. Atlantis and Other Lost Worlds is the most up-to-date and comprehensive investigation of this ancient island, written by the foremost authority on the subject Frank Joseph. Nowhere else will you find a more dramatic and convincing presentation of the evidence for its archaeological reality. The book uncovers the scientific genius of the ancients and the spiritual power of their mysterious religion. They are revealed as the inventors of a crystal technology to surpass our own, and the master builders of pyramidal monuments around the world. The cultural heritage of Atlantis in the civilizations of pharaonic Egypt, Bronze Age Europe, Maya Mexico and Inca Peru is clearly described. The doomed capital comes alive in a vivid recreation of its heyday of cultural splendor and imperial might. Inside these pages you will find the answers to many intriguing questions, including: • What is the most likely location of Atlantis? • How and when was Atlantis destroyed? • Has Japan's leading geologist found the sunken 'citadel' of Lemuria? • Have Russian oceanographers found the ruins of Atlantis? • What are the disturbing parallels between Atlantis and our time? Atlantis and Other Lost Worlds opens a new window on the ancient past, offering views of Atlantis and its kindred civilizations never seen before.

An award-winning author and veteran mountain climber takes us deep into the Southwest backcountry to uncover secrets of its ancient inhabitants. In this thrilling story of intellectual and archaeological discovery, David Roberts recounts his last twenty years of far-flung exploits in search of spectacular prehistoric ruins and rock art panels known to very few modern travelers. His adventures range across Utah, Arizona, New Mexico, and southwestern Colorado, and illuminate the mysteries of the Ancestral Puebloans and their contemporary neighbors the Mogollon and Fremont, as well as of the more recent Navajo and Comanche.

This book relates three years (1921-1924) in the life of Gilbert Bagnani, a young Italian archaeologist in Greece, based on his letters to his mother in Rome, at first as a non-partisan observer of, and later as an active participant in, some of the most tumultuous events in modern Greek history.

Drawing on ancient historical writings, the vast array of information gleaned in recent years from the study of Hellenistic coins, and startling archaeological evidence newly unearthed in Afghanistan, Frank L. Holt sets out to rediscover the ancient civilization of Bactria. In a gripping narrative informed by the author ' s deep knowledge of his subject, this book covers two centuries of Bactria ' s history, from its colonization by remnants of Alexander the Great ' s army to the kingdom ' s collapse at the time of a devastating series of nomadic invasions. Beginning with the few tantalizing traces left behind when the ' empire of a thousand cities ' vanished, Holt takes up that trail and follows the remarkable and sometimes perilous journey of rediscovery. Lost World of the Ancient King describes how a single bit of evidence—a Greek coin—launched a search that drew explorers to the region occupied by the tumultuous warring tribes of eighteenth- and nineteenth-century Afghanistan. Coin by coin, king by king, the history of Bactria was reconstructed using the emerging methodologies of numismatics. In the twentieth century, extraordinary ancient texts added to the evidence. Finally, one of the ' thousand cities ' was discovered and excavated, revealing an opulent palace, treasury, temple, and other buildings. Though these great discoveries soon fell victim to the Afghan political crisis that continues today, this book provides a thrilling chronicle of the search for one of the world ' s most enigmatic empires.

"The Bighorn Basin of Wyoming may be the best place on Earth to tell the story of our planet, as it contains layers of rock from almost every geologic time period. Merging paleontology, geology, and artistry, Ancient Wyoming illustrates twelve scenes from Earth's deep past, and provides fascinating details on the flora and fauna of the past 500 million years. Journey back in time and see what Wyoming looked like when it was a deep inland sea, a muddy swamp, an endless field of sand dunes, and a land of glacial ice and exploding super volcanoes"--Back cover.

In this astute mix of cultural critique and biblical studies, John H. Walton presents and defends twenty propositions supporting a literary and theological understanding of Genesis 1 within the context of the ancient Near Eastern world and unpacks its implications for our modern scientific understanding of origins.

Blending high adventure with history, this chronicle of 100 astonishing discoveries from the Dead Sea Scrolls to the fabulous "Lost City of the Monkey God" tells incredible stories of how explorers and archaeologists have uncovered the clues that illuminate our past. Archaeology is the key that unlocks our deepest history. Ruined cities, golden treasures, cryptic inscriptions, and ornate tombs have been found across the world, and yet these artifacts of ages past often raised more questions than answers. But with the emergence of archaeology as a scientific discipline in the 19th century, everything changed. Illustrated with dazzling photographs, this enlightening narrative tells the story of human civilization through 100 key expeditions, spanning six continents and more than three million years of history. Each account relies on firsthand reports from explorers, antiquarians, and scientists as they crack secret codes, evade looters and political suppression, fall in love, commit a litany of blunders, and uncover ancient curses. Pivotal discoveries include: King Tut's tomb of treasure Terracotta warriors escorting China's first emperor into the afterlife The glorious Anglo-Saxon treasure of Sutton-Hoo Graves of the Scythians, the real Amazon warrior women New findings on the grim fate of the colonists of Jamestown With a foreword from bestselling author Douglas Preston, Lost Cities, Ancient Tombs is an expertly curated and breath-taking panorama of the human journey.

Includes material on the ancient civilization of Egypt, Mesopotamia, Sumer, Babylonia, the Indus river, Crete, Mycenae, and Anatolia. Also includes material on the Minoans, Etruscans, Khmers, and Maya.
