This two-tiered approach has been hailed as "ingenious" by Professor Kuhn-Osius of the City University of New York. A step-by-step guide to the basics of conversation and grammar, the revised and updated course uses a highly effective speed-learning method developed by U.S. government experts during World War II and adapted for home study in 1946. The 40 lessons on two 90-minute cassettes (or three 60-minute compact discs) start with words, then progress to phrases and full dialogues. This building-block approach makes it easy to learn. Only the new language is heard on the recordings, with translations and explanations provided in the accompanying manual.
