to the Rockies, over the mountains, down the Columbia River to the Pacific Ocean, and back. Lewis and his partner, Captain William Clark, made the first map of the trans-Mississippi West, provided invaluable scientific data on the flora and fauna of the Louisiana Purchase territory, and established the American claim to Oregon, Washington, and Idaho. Ambrose has pieced together previously unknown information about weather, terrain, and medical knowledge at the time to provide a vivid backdrop for the expedition. Lewis is supported by a rich variety of colorful characters, first of all Jefferson himself, whose interest in exploring and acquiring the American West went back thirty years. Next comes Clark, a rugged frontiersman whose love for Lewis matched

High adventure, high politics, suspense, drama, and diplomacy combine with high romance and personal tragedy to make this outstanding work of scholarship as readable as a novel.

military expedition into hostile territory'. In 1803 President Thomas Jefferson selected his personal secretary, Captain Meriwether Lewis, to lead a pioneering voyage across the Great Plains and into the Rockies. It was completely uncharted territory; a wild, vast land ruled by the Indians. Charismatic and brave, Lewis was the perfect choice and he experienced the savage North American continent before any other white man.

UNDAUNTED COURAGE is the tale of a hero, but it is also a tragedy. Lewis may have received a hero's welcome on his return to Washington in 1806, but his discoveries did not match the president's fantasies of sweeping, fertile plains ripe for the taking. Feeling the expedition had been a failure, Lewis took to drink and piled up debts. Full of colourful characters -

In this account of an unprecedented feat of engineering, vision, and courage, Stephen E. Ambrose offers a historical successor to his universally acclaimed *Undaunted Courage*, which recounted the explorations of the West by Lewis and Clark. *Nothing Like It in the World* is the story of the men who built the transcontinental railroad -- the investors who risked their businesses and money; the enlightened politicians who understood its importance; the engineers and surveyors who risked, and lost, their lives; and the Irish and Chinese immigrants, the defeated Confederate soldiers, and the other laborers who did the backbreaking and dangerous work on the tracks. The Union had won the Civil War and slavery had been abolished, but Abraham Lincoln, who was an early

and constant champion of railroads, would not live to see the great achievement. In Ambrose's hands, this enterprise, with its huge expenditure of brainpower, muscle, and sweat, comes to life. The U.S. government pitted two companies -- the Union Pacific and the Central Pacific Railroads -- against each other in a race for funding, encouraging speed over caution. Locomotives, rails, and spikes were shipped from the East through Panama or around South America to the West or lugged across the country to the Plains. This was the last great building project to be done mostly by hand: excavating dirt, cutting through ridges, filling gorges, blasting tunnels through mountains. At its peak, the workforce -- primarily Chinese on the Central Pacific, Irish on the Union Pacific --

approached the size of Civil War armies, with as many as fifteen thousand workers on each line. The Union Pacific was led by Thomas "Doc" Durant, Oakes Ames, and Oliver Ames, with Grenville Dodge -- America's greatest railroad builder -- as chief engineer. The Central Pacific was led by California's "Big Four": Leland Stanford, Collis Huntington, Charles Crocker, and Mark Hopkins. The surveyors, the men who picked the route, were latter-day Lewis and Clark types who led the way through the wilderness, living off buffalo, deer, elk, and antelope. In building a railroad, there is only one decisive spot -- the end of the track. Nothing like this great work had been seen in the world when the last spike, a golden one, was driven in at Promontory Summit, Utah, in 1869, as

the Central Pacific and the Union Pacific tracks were joined. Ambrose writes with power and eloquence about the brave men -- the famous and the unheralded, ordinary men doing the extraordinary -- who accomplished the spectacular feat that made the continent into a nation.

An inspiring and powerful memoir of surviving the Jonestown massacre and becoming a fearless voice against injustice and inequality by California congresswoman Jackie Speier. Jackie Speier was twenty-eight when she joined Congressman Leo Ryan's delegation to rescue defectors from cult leader Jim Jones's Peoples Temple in Jonestown, Guyana. Ryan was killed on the airstrip tarmac. Jackie was shot five times at point-

blank range. While recovering from what would become one of the most harrowing tragedies in recent history, Jackie had to choose: Would she become a victim or a fighter? The choice to survive against unfathomable odds empowered her with a resolve to become a vocal proponent for human rights. From the formative nightmare that radically molded her perspective and instincts to the devastating personal and professional challenges that would follow, Undaunted reveals the perseverance of a determined force in American politics. Deeply rooted in Jackie's experiences as a widow, a mother, a congresswoman, and a fighter, hers is a story of true resilience, one that will inspire other women to draw strength from adversity in order to do what is
