In order for education to truly be transformative and cultivate global citizens with a shared concern for the world, various strategies must be pursued, including: curriculum development for ...

Knowledge and Skills for Becoming Global Citizens

By showing the strong effect of temperature on biodiversity and revealing how it enables the development of a planetary gradient in marine biodiversity, our results offer a way to better understand why temperature is so often positively correlated with global patterns in species richness on a global scale.

Towards an understanding of the pattern of biodiversity in ...

Exploration of the processes that created the global spread of the "imagined communities" of nationality. Arthur, J. with Bailey, R. (2000) Schools and Community. The communitarian agenda in education, London: Falmer. 165 + ix pages. Helpful review of the main communitarian themes and what might constitute the "communitarian agenda".

What is community? - infed.org:

What do we mean by understanding and describing the community? Understanding the community entails understanding it in a number of ways. Whether or not the community is defined geographically, it still has a geographic context -- a setting that it exists in. Getting a clear sense of this setting may be key to a full understanding of it.

Section 2. Understanding and Describing the Community

Primary health care is an important concept in the practice of global community health. You have had some difficulty in understanding the difference between primary health care and primary care. Discuss this difference. Patterns of health and disease have a great impact on global health.

Violent behavior has become deeply integrated into modern society and it is an unavoidable aspect of human nature. Examining peacemaking strategies through a critical and academic perspective can assist in resolving violence in societies around the world. The Handbook of Research on Examining Global Peacemaking in the Digital Age is a pivotal reference source for the latest research findings on the utilization of peacemaking in media, leadership, and religion. Featuring extensive coverage on relevant areas such as human rights, spirituality, and the Summer of Peace, this publication is an ideal resource for policymakers, universities and colleges, graduate-level students, and organizations seeking current research on the application of conflict resolution and international negotiation.

Since the end of the Cold War, interaction among communities across the globe has increased exponentially. Globalization has changed how we live, how we communicate, what we eat, and how we travel around the world. What do such social, political, and economic changes mean in a twenty-first-century context? Understanding the Global Community explores these and other key questions, offering a concise overview of contemporary topics in international relations. Edited by Zach P. Messitte and Suzette R. Grillo, with contributions from prominent scholars across various disciplines, this accessible survey is perfectly suited for undergraduate courses in international and area studies as well as for anyone seeking a clearer understanding of today's major global concerns. Unique in its approach, Understanding the Global Community examines both international issues and regional perspectives. The first half of the book explores overarching global themes, including American foreign policy, international security, humanitarian intervention, and the global economy. The second half addresses nationalism and its challenge to the development of a global community, with region-specific chapters focusing on historic and contemporary issues in China, Europe, Latin America, and the Middle East. A glossary at the end of the book provides useful definitions of key terms and concepts.

'Contemporary Security Studies' introduces students to the broad range of issues that dominate the security agenda in the 21st century and provides up-to-date coverage of traditional and non-traditional threats to survival.

In this book, the authors analyze big data on global interdependence caused by the flows of commodities, money, and people, using a network science approach to obtain differing views of globalization and to clarify the facts on isolation of communities. Globalization reduces international economic inequality, i.e., it allows emerging countries to catch up while it increases relative poverty in some advanced countries. How should this trade-off between international and domestic inequalities be resolved? At the same time, the reduction of biocultural diversity caused by globalization needs to be avoided. What kind of change is required in local communities to conserve biocultural diversity? On the issue of commodity flow, research results of the supply-chain network, isolation in industry, and resource flows and stocks are presented in this book. For monetary flow, ownership networks, value-added networks, and profit shifting were studied; and regarding the flow of people, linkage of ethnic groups, immigrant assimilation, and refugees were examined. Based on the resulting view of globalization and isolation, the development of the isolation index using machine learning is discussed. Finally, recommendations for evidence-based policymaking in the United Nations are considered.

This new textbook introduces key mechanisms and issues in international conflict management and engages students with a comprehensive interdisciplinary approach to mitigating, managing, and transforming international conflicts. The volume identifies key historical events and international agreements that have shaped and defined the field of international conflict management, as well as key dilemmas facing the field at this juncture. The first section provides an overview of key mechanisms for international conflict management, such as negotiation, mediation, nonviolent resistance, peacekeeping, peacebuilding, transitional justice, and reconciliation. The second section tackles important cross-cutting themes, such as technology, religion, the economy, refugees and migration, and the role of civil society, examining how these issues contribute to international conflicts and how they can be leveraged to help address such conflicts. Each chapter includes a brief historical overview of the evolution of the issue or mechanism, identifies key theoretical and practical debates, and includes case studies, discussion questions, website links, and suggested further reading for further study and engagement. By providing a mixture of theory and practical examples, this textbook provides students with the necessary background to navigate this interdisciplinary field. This volume will be of great interest to students of international conflict management, conflict resolution, peace studies, and international relations in general.

The 2014 edition of 'The Global Community Yearbook' both updates readers on the important work of long-standing international tribunals and introduces readers to more novel topics in international law. This edition includes expert introductory essays by prominent scholars in the realm of international law, on topics as diverse and current as the intervention of the United States and coalition partners in territories under the control of the Islamic State of Iraq and the Levant (ISIL) to the weak area in the institutional and normative framework of the Revised Treaty of Chaguaramas.

This up-to-date textbook features global perspectives on current Christian engagement with Islam, equipping readers for mission among Muslims. Evelyne Reisacher, who has worked extensively with Muslims in Europe, helps readers move from fear to joy as they share the gospel with Muslims. Reisacher surveys areas where Muslims and Christians encounter one another in the twenty-first century, highlighting innovative models of Christian witness in everyday life. Drawing on insights from global Christianity, this survey takes account of diverse conceptions of Muslim-Christian relations. The book may surprise those who believe mission among Muslims is nearly impossible. This is the first book in the Mission in Global Community series, which reframes missiological themes and studies for students around the common theme of mission as partnership with others. Series authors draw upon their own global experience and that of their global colleagues to illumine present realities and chart a course into the future. Series editors are Scott W. Sunquist and Amos Yong.

This research addresses the gap that is present in both missiology and family and youth ministry. Missiology does not focus on children and youth specifically, while this is the largest population in the developing world. On the other hand, family and youth ministry has a more pastoral than missional approach, not always taking cognisance of contexts like globalisation. Thus, the purpose of the book is to address the sometimes unintended and unnoticed influence of globalisation on the mission of the church, with a specific focus on children, youth and family. For this purpose, the International Association for Mission Studies study group for children, youth and families coming from different parts of the world decided to describe the powers, inequalities and vulnerabilities of children, youth and families in a globalised world from their specific contexts. Although the most prominent research methodology was critical literature studies, methods like autoethnographic, and empirical methods were also used. No decisions were made on a specific method of research for this publication. This publication can be viewed as an interdisciplinary and intra-disciplinary, because it deals with social sciences, anthropology, psychology, missiology, systematic theology and practical theology.

The 2020 edition marks the 20th Anniversary of The Global Community Yearbook of International Law and Jurisprudence. The Yearbook has established itself as an authoritative source of reference on global legal issues and international jurisprudence. It includes analysis of the most significant global trends in a way that allows readers to monitor the development of the global legal order from several perspectives. The Yearbook publishes annually in a volume of carefully chosen primary source material and corresponding expert commentary. The General Editor, Professor Giuliana Ziccardi Capaldo, employs her vast expertise in international law to select excerpts from important court opinions and to choose experts from around the world to contribute essay-guides, which illuminate those cases. Although the main focus is recent case law from the major international tribunals and regional courts, the first four parts of each year's edition features expert articles by renowned scholars who address broader themes in current and future developments in international law and global policy, themes that appear throughout the case law of the many courts covered by the series as a whole. The Global Community Yearbook has thus become not just an indispensable window to recent jurisprudence: the series now also serves to prepare researchers for the issues facing emerging global law. This anniversary edition updates readers on the important work of long-standing international tribunals and introduces readers to more novel topics in international law. The journal's founding editor, Professor Emeritus Giuliana Ziccardi Capaldo, in her Editorial gives a presentation of the Yearbook's intellectual trajectory, as developed from its original roots, showing intriguing prospects for a publication that aims at the very forefront of events in law, politics, ethics, and jurisprudence in a global community. The Yearbook continues to provide expert coverage of the Court of Justice of the European Union and diverse tribunals from the International Court of Justice (ICJ), human rights courts (ECtHR, IACtHR, ACtHPR), criminal tribunals such as the International Criminal Court (ICC) and the International Residual Mechanism for Criminal Tribunals (MICT), to economically based tribunals such as ICSID and the WTO dispute settlement system. This edition contains original research articles on the development and analysis of the concept of global law and the views of the leading global law theorists on the subject of globalization. This 20th anniversary edition also includes a special section which provides an interdisciplinary overview of China's Belt and Road Initiative; and an examination of the global public health order in a post-COVID-19 world. The Yearbook provides students, scholars, and practitioners alike a valuable combination of expert discussion and direct quotes from the court opinions to which that discussion relates, as well as an annual overview of the process of cross-fertilization between international courts and tribunals.
