Who can afford not to understand the USA? Many facets of American life have been embraced around the world, yet the sense of "just like in the movies" familiarity that first-time visitors often feel can be misleading. Underneath the gleaming smile of American popular culture lies a rich and complex society that brims with contrasts and contradictions. It is a culture of rugged individualism, of go-getters, of high-tech high achievers. At the same time it is a deeply religious country with a quiet devotion to church and charitable works. This updated new edition of Culture Smart! USA also reveals a society in transition. The USA responded to the 9/11 attacks by embarking on two overseas wars, while at home the subprime mortgage crisis rippled through the economy, bringing the first African-American president to power during the biggest recession since the 1920s. In an increasingly polarized political and cultural climate, and with an ever widening gap between the haves and the have-nots, the rise of the social media has given more Americans a voice, from the Tea Party on the right to the Occupy Wall Street movement on the left. As Americans wake up to a changing world where their global economic dominance is no longer assured, attitudes and behavior are being challenged and reassessed across the land. Culture Smart! USA takes you on a tour of the core influences and ideals that have shaped this great country and have driven the behavior and attitudes found on Main Street and in the workplace. It looks at Americans at work, at home, and at play, and provides the visitor with an up-to-date cultural "road map" of this dynamic, multifaceted society.

This unique book paints a revealing picture of America and its people for those foreigners who will benefit from a better understanding of America. It will also inform Americans who want to learn more about the U.S. and how it compares to other countries around the world. World traveler and teacher Lance Johnson studies cultural differences and the difficulties foreigners have understanding crazy America, as some call it. Foreigners might come to the U.S. to work for American employers, to open branch offices or factories for their homeland employers, to start their own businesses, or go to school. Others might work for American organizations in their homelands or have American teachers there. An understanding of American culture and language will contribute to their success. As the title suggests, this book is for "foreigners." Dictionaries say they are people who are not citizens of a country. For this book they are defined as anyone who is not sufficiently familiar with American culture to achieve success. This includes the multitudes of foreign-born, naturalized citizens who have lived in the U.S. for years and still struggle with the ways and the language. A foreigner could also be a first-generation American whose immigrant parents did not fully expose their children to American culture and they now pay the price in mainstream U.S. There are lots of other examples, too. **FORMAT** Each of the 26 chapters' brush strokes contributes to the final painting of what America is all about. The chapters are grouped into four books. (An all-in-one book is also available.) •Book 1 (A to G) – America's Heritage. This defines the historical background of why America and its people became who and what they are today. •Book 2 (H to T, this book) – America's Culture. This section describes everyday life in America, ranging from customs and etiquette, to what's on the minds of Americans, to education. Practical advice is provided for the one million foreign applicants who seek and gain admission to U.S. colleges and universities each year. Pointers are provided on the cultural differences students should expect, and how to get the most from their education once enrolled. •Book 3 (U to X) – America's Business. This explains the complex business environment, operations, and people-related customs and why the U.S. is an economic juggernaut. Information is provided for starting a business of your own in the U.S. as well as how to increase the chances of your getting hired by an American firm in the U.S. or abroad. •Book 4 (Y to Z) – America's Language. These chapters discuss practical ways to improve English grammar, speech, writing, communication skills, and reducing accents. Common English grammar and speech errors made by foreigners are identified and simple tips are provided for overcoming them. **ENDORSEMENTS** "I congratulate you on writing this timely work. This will promote better mutual understanding between America and Asia." - Tommy Koh, Singapore Ambassador to the U.N. and U.S. "Your book covers a broad range of topics that I am sure many...will find very useful." - Clark T. Randt, Jr., U.S. Ambassador to China. "I greatly appreciate your efforts in sharing with other people your opinion

and experience on the exchanges between different peoples and cultures. It is so important for us to better understand each other while striving to build a better world for all." - Zhou Wenzhong, China Ambassador to U.S. "I found this book refreshingly different from the general run of books in this genre." - Mohammad Vazeeruddin, India journalist. "The A to Z chapters are nicely written and...the language is simple and lucid." - Jay Gajjar, India language professor. "I love this book's generous use of helpful hints. I highly recommend it for anyone who wants to learn more about America like I did." - Sarah Kim, Korean American business owner.

Culture Smart! provides essential information on attitudes, beliefs and behavior in different countries, ensuring that you arrive at your destination aware of basic manners, common courtesies, and sensitive issues. An exhaustive advice book for foreign visitors to the U.S. seeking to understand the motivations, attitudes, and actions of Americans.

Georgia lies between Eastern Europe, Central Asia, and the Middle East, on the southeastern shore of the Black Sea. This small Caucasian country is used to playing a significant role in global geopolitics, and its strategic location at the crossroads of different civilizations has been a curse as well as a blessing. Once a battlefield of the Christian and Muslim worlds, today it is caught between its NATO aspirations and its location in Russia's backyard. The Silk Road brought the best of the world to Georgia. Its ancient Christian culture shows the influence of Arab, Persian, and Ottoman conquerors. Combined with this is a southern, "Mediterranean" feel, traces of the Soviet legacy, and a strong Western influence. What awaits the visitor is a unique culture that goes back thousands of years. Georgia has a rich historical heritage, wonderful food and wines, unforgettable scenery, authentic folk music and dances, an attractive business climate, and an educated and hospitable people for whom indulging a guest is more a religion than a duty. Culture Smart! Georgia offers invaluable insights and practical tips for tourists and business people alike. The author, Natia Abramia, guides you through the past and present-day realities of her motherland, explaining what makes people tick, how they live and feel, and how to get on with them. You will discover that the Georgians will not let you down. Learn how to reach their hearts, and they will charm you back.

What is sold at garage sales? Why does no one get wet at a bridal shower? For non-native speakers, here's a humorous approach to understanding common American customs and the expressions related to them. Customs are explained, one to a page, with conversational examples and whimsical cartoons. Topics range from age-old traditions, such as shaking hands and bachelor parties, to more modern American practices--coupon clipping, TV dinners, and tailgate parties.

Knowledge of and sensitivity toward diversity is an essential skill in the contemporary United States and the wider world. This book addresses the standard topics of race, ethnicity, class and gender but goes much further by engaging seriously with issues of language, religion, age, health and disability, and region and geography. It also considers the intersections between and the diversities within these categories. Eller presents students with an unprecedented combination of history, conceptual analysis, discussion of academic literature, and up-to-date statistics. The book includes a range of illustrations, figures and tables, text boxes, a glossary of key terms, and a comprehensive bibliography. Additional resources are provided via a companion website.

Looks at the social life, customs, and national characteristics of the United States, including coverage of such topics as values, attitudes, religion, family, food, language, and social relationships.
