Learn About Nature's Amazing Animal Architects! Beaver dams, bird nests, spider webs—the animal kingdom is filled with expert builders that construct spectacular homes. How much do you know about them? Can you identify a critter based on where it lives? Find out in this fun and interactive picture book by award-winning author, naturalist, and wildlife photographer Stan Tekiela. Study a photo of an animal’s house, and examine a clue about the creature that built it. Analyze the information, and formulate a guess as to “Whose house is that?” Then turn the page to discover the answer. You’ll learn facts about the innovative birds, bugs, mammals, and more that build nature’s most astonishing homes. Whose House Is That? features Stan’s stunning wildlife photography and expert information that children, adults, and educators will appreciate. The book is an entertaining introduction to a variety of animal species found in North America. With every reading, kids will become more familiar with animals and the natural world.

Become a Wildlife Detective! Spotting animals in the wild is tricky, but they leave plenty of clues behind—especially tracks. Examine the evidence. Study the animal tracks. See if you can guess “Whose track is that?” Then turn the page to discover the answer! This interactive and entertaining picture book features the full-color photography of Stan Tekiela, a professional naturalist and award-winning author. With every reading, children get more familiar with a variety of North American critters. They might soon start seeing animal tracks on every outing!

Can you find the hidden critters in these photographs? Animals aren’t always easy to spot. Some hide while they hunt. Others hide to avoid being hunted. Many critters don’t need to hide—their colors match their surroundings. Wildlife photographer Stan Tekiela is also good at hiding. He hides from animals to take pictures of them! In Hidden Critters, the award-winning author presents his amazing wildlife images that prove animals are great at hiding. Look closely. Do you see the animals? Study each picture in the book, and try to spot the critter. Then read the clues and guess which animal it is. When you have an answer, turn the page and find out if you’re right! Hidden Critters is an engaging, interactive introduction to North American animals. Finding them is sure to become your family’s favorite game! Features: Full-color photos of real animals Engaging text to interest young readers Fun facts about the natural world

Invites readers to guess what animal they are looking at based on an image of the animal's bottom.

Laugh while you learn about baby animals. From fuzzy to feathery, baby animal butts are the silliest sights in nature. This hilarious book is the perfect companion to Whose Butt?, an acclaimed picture book by award-winning wildlife photographer Stan Tekiela. Readers are shown a baby animal’s behind and asked to guess, “Whose baby butt is this?” Then it’s time to turn the page and discover the answer! Features: Interactive text Sensational photographs Whose Baby Butt? will have kids laughing out loud as they’re introduced to a new variety of North American critters.

In this interactive picture book by renowned wildlife photographer Stan Tekiela, readers are shown familiar animal homes, given clues, and asked to guess, "Whose house is that?"

Baby critters are soft and cuddly, but which is the cutest? Award-winning author Marion Dane Bauer poses this question, leading readers on a heartwarming journey to find The Cutest Critter. Stan Tekiela's adorable photographs provide plenty of choices, but by story's end there is just one answer. Stan and Marion's other collaborations both won Mom's Choice Awards. The Cutest Critter is sure to become another family favorite. Share it with someone you love, and introduce them to the wonders of nature.

An Interactive Journey up the Food Chain Animals are adorable, but they also have a wild side. Many hunt to survive—and must avoid being hunted. This kid-friendly introduction to nature’s predator-prey relationship spotlights several amazing examples. Wildlife photographer Stan Tekiela presents spectacular photos of real critters in their natural habitats, while author Ryan Jacobson explores their most interesting hunting and eating habits. How do snakes catch their meals? Why do mosquitoes feed on blood? Children learn about each animal and then get to guess, What Eats That? With every turn of the page, the predator becomes the prey as the answer is revealed! Stan and Ryan’s first book together won a Mom’s Choice Award. This follow-up is perfect for any child who loves animals or appreciates nature.

Read Along or Enhanced eBook: Poop! Ewww! No, don't say “Ewww.” Ask, “Whose poop is that?” This simple, and yes, charming book asks this question about seven examples of animal poop. By investigating visual clues, young readers can learn to identify the animal through its droppings. For instance, find a sample of poop with bits of bone and tufts of hair. Turn the page to learn it came from a fox! Kelsey Oseid’s illustrations are both accurate and beautiful. Backmatter includes further information about the poop and what scientists can learn from an animal’s droppings. From the Hardcover edition.
