The book on "INDIA'S MAJOR MILITARY & RESCUE OPERATIONS" by Dr. H.K. Pandey and Manish Raj Singh which has been very well conceptualized. Both the writers have been into the process for almost last two years and have obtained the required details from all the possible available sources, researched it well and have given it a wonderful shape, to help anyone who wants to know about Indian Military & Rescue Operations. Dr. H.K. Pandey has a varied experience behind him being the present Head of the Department of Defence and Strategic Studies at Meerut College, Meerut. He has always positive attitude toward his subject. His knowledge and mastery on the subject is enormous. Manish Raj Singh, is a student in the Department of Defence and Strategic Studies at Meerut College, Meerut has shown keen interest and dedication towards the subject completely. He is very hardworking and enthusiastic. He has left no stones unturned to get the details about the topics of the subjects and comes out with the best possible outcome. His knowledge of the subject is evident from the work produced in this detailed book. The book has wonderfully covered the background, political views, role, tasks and the major technological development during these military and rescue operations. The book shall be of great help to the students of Defence Studies/Military Science of various Colleges and Universities all over India to get a fair idea about the strengths of India's Operations to enhance their knowledge about operations for their use in subject for competitive examinations as applicable to them at various levels of their career. The general readers too will get a fair idea about the strength of Indian Forces during these operations at national and international level. This will give them the confidence to work hard in their concerned fields towards the development of a stronger India that is capable to take on its adversaries neighboring countries anytime and defeat their ongoing plans to imbalance its development as a power in South Asia. I once again congratulate both the writers for giving a comprehensive concise look at Indian Operations through their book and wish them all the success in their future endeavors. Maj. Gen.

A K Shukla (VSM)

Chinese Media in Africa: Perception, Performance, and Paradox is a contribution to the debate on Chinese media expansion into Africa. Interviews bring to light the paradoxical nature of Chinese media organizations that both preach equality with Africa and simultaneously promote Chinese hegemony in the media.--Ritchard M'bayo, Fulbright Professor

Contains contact information and biographical sketches about the members of the United States Congress.

ownership of the News : 1st report of session 2007-08, Vol. 2: Evidence

The Global News Challenge tackles one of the timeliest topics in mass communication today—the challenges facing international broadcasters with universal branding strategies in developing countries. In these heavily government-controlled media environments with a scarcity of reliable information, international news providers traditionally had an influential position. With the ongoing media liberalization, however, commercial domestic providers have gained in strength to become strong competitors. Additionally, in a number of countries, pan-Arab broadcasting enterprises have widened their reach, contributing to the growing competition for traditional international providers such as the BBC or France 24. This book employs a global perspective to explore the subject across the whole population and different media platforms in select developing markets of Africa and South Asia. It is unique in providing a theoretical framework by which to analyze demand and usage of and trust in news from international broadcasters across the whole population, not just opinion leaders. It outlines the strategic options for international broadcasters in these evolving market contexts.
