Best in Show is a collection of photographs of well-groomed and award-winning dogs by New York City-based photographer Dolly Faibyshev. The images from the Westminster Kennel Club Dog Show and beyond focus on the unique—and often humorous—relationship between each dog and their handler. Dolly Faibyshev focuses on kitsch, irony, and the larger than life human and canine characters that make up Best in Show. The result is a colorful, vibrant, campy, and satirical take on this specific slice of Americana. • The colorful, closely cropped juxtapositions of each coiffed canine contestant and their dedicated human are both humorous and charming. • Sure to delight fans of all breeds of dogs • A universal and ideal book for all canine lovers with a sense of humor Best in Show captures a specific subculture of dog devotees primarily from the infamous Westminster Kennel Club Dog Show at Madison Square Garden in New York. • A perfect book for anyone who is completely and totally obsessed with dogs and the Westminster Kennel Club Dog Show • Photographers and contemporary art lovers will also love this celebration of Dolly Faibyshev's work • Great for fans of The Dogist: Photographic Encounters with 1,000 Dogs by Elias Weiss Friedman, Dogs by Lewis Blackwell and Tim Flach, and Underwater Dogs by Seth Casteel

Vietnam is one of Southeast Asia's most dynamic but least understood countries, and interest in the country has surged in recent years. The Routledge Handbook of Contemporary Vietnam is a comprehensive resource that looks at the social, political, economic and cultural aspects of Vietnam today. Following an introduction that highlights major changes that have unfolded in the country in the last two decades, the book is divided into 4 thematic parts: Domestic Politics Economy Social institutions and social change Culture and social change In the political field, chapters address key developments in Vietnam's mainline political institutions, from the Communist Party and the country's formally-representative system of councils and assemblies, to the role of the military and public security. It also looks at the rise of political competition that has unfolded in the country. In the economic section, the Handbook probes the development and transformation of Vietnam's economic institutions and its implications with respect to patterns of economic growth, industrialization and agrarian change. Parts 3 and 4 discuss the profound changes that Vietnam has experienced across all major social fields, including the education, health and legal sectors, the mass media, family life, gender and ethnic relations, and key media and artistic fields. Written by an international team of scholars, the Handbook provides a cutting edge analysis on Vietnam's rapidly-changing engagement with the world. It is an invaluable interdisciplinary reference book of interest to students and academics of Southeast Asian Studies, as well as policymakers, analysts and anyone wishing to

learn more about contemporary Vietnam.

Design Transactions presents the outcome of new research to emerge from "Innochain", a consortium of six leading European architectural and engineering-focused institutions and their industry partners. The book presents new advances in digital design tooling that challenge established building cultures and systems. It offers new sustainable and materially smart design solutions with a strong focus on changing the way the industry thinks, designs, and builds our physical environment. Divided into sections exploring communication, simulation and materialisation, Design Transactions explores digital and physical prototyping and testing that challenges the traditional linear construction methods of incremental refinement. This novel research investigates "the digital chain" between phases as an opportunity for extended interdisciplinary design collaboration. The highly illustrated book features work from 15 early-stage researchers alongside chapters from world-leading industry collaborators and academics.
