processing, morphology, structure, and properties of advanced polymeric materials. With contributions from leading international researchers and professors in academic, government and industrial institutions, *Advanced Polymeric Materials for Sustainability and Innovations* has a special focus on eco-friendly polymers, polymer composites, nanocomposites, and blends and materials for traditional and renewable energy. In this book the relationship between processing-morphology-property applications of polymeric materials is well established. Recent advances in the synthesis of new functional monomers has shown strong potential in generating better property polymers from renewable resources. Fundamental advances in the field of nanocomposite blends and nanostructured polymeric

Artistic practices have long been disturbing the relationships between art and space. They have challenged the boundaries of performer/spectator, of public/private, introduced intervention and installation, ephemerality and performance, and constantly sought out new modes of distressing expectations about what is construed as art. But when we expand the world in which we look at art, how does this change our understanding of critical artistic practice? This

book presents a global perspective on the relationship between art and the city. International and leading scholars and artists themselves present critical theory and practice of contemporary art as a politicised force. It extends thinking on contemporary arts practices in the urban and political context of protest and social resilience and offers the prism of a 'critical artscape' in which to view the urgent interaction of arts and the urban politic. The global appeal of the book is established through the general topic as well as the specific chapters, which are geographically, socially, politically and professionally varied. Contributing authors come from many different institutional and anti-institutional perspectives from across the world. This will be valuable reading for those interested in cultural geography, urban geography and urban

The only authorized full-color book commemorating Derek Jeter's iconic baseball career with the New York Yankees, featuring archival images and original photos of his final 2014 season from renowned photographer Christopher Anderson. Derek Jeter's twentieth and final season in Major League Baseball truly marks the end of a sports era. The New York Yankees' shortstop—a five-time World Series victor, team captain since 2003, and one of the greatest ballplayers of all time—is a beloved and inspiring role model who displays the indefinable qualities of a champion, on and off the field. Jeter Unfiltered is a powerful collection of never-before-published

images taken over the course of Derek's final season. Fans will have unprecedented access to "The Captain," as the famously private baseball legend takes us behind the scenes—inside his home, the stadium, the gym, at his Turn 2 Foundation events, fortieth birthday party, and more—as he looks back with candor and gratitude on his baseball career. The result is an intimate portrait bursting with personality, professionalism, and pride. Jeter Unfiltered is Jeter as you have never seen him before: unguarded, unapologetic...unfiltered.

This book, first published in 1984, is an attempt to make students aware of the variety in the urban condition and to introduce them to some of the relationships operating

between space and society. From the broad aim of seeking to show the relationship between urbanism and society flows a number of sub-themes, including the importance of cross-cultural comparisons and contrasts, re-distributional consequences and the role of government. This book will be of interest to first- and second-year students of urban studies and human geography.

To fans of sassy and savvy urban music, the name Rick James will forever be associated with the mainstream emergence of funk—that bottom-heavy blend of rock and soul that sparked a multiracial musical revolution in the 1970s and 1980s and has since influenced everything from rap to raves, punk to progressive rock. Along with the fame, the Grammy
